

Cover Letter for Dimas DeJesus

Cabling Technician looking for an exciting opportunity in the greater San Diego area.

Committed professional dedicated to custom-crafting and installing technology solutions for companies requiring Network Cabling, Data Center, Outside Plant, Fiber Optics, Audio Visual, Physical Security, and Network Services.

Because of my past experiences, I am able to wear many hats today; From conceptualization, through design and engineering, to installation and programming, including becoming the single point of contact.

Recently at AthenX Inc. I became the SPOC for at least 3 major projects, plus supervised/coached 4 new Techs about Safety on the Job, and made sure we had the proper tools and resources to do the job.

I am available for interview ASAP, and Look forward to discussing this role with you in our interview.

Thank You,
Dimas
